Opportunities for Collaboration

Litea Biukoto
Pacific Resilience Programme
Pacific Community
The next phase of this work looks beyond the catastrophe risk insurance application to targeted DRR for not just the application but also the collection and update of exposure data.
Collaboration of Partners and Countries

- Ongoing projects and initiatives where decision support tools are being developed and tested including for impact forecasting
  - **PaRTner**: Pacific Risk Tool for Resilience – open access
  - **PacSAFE**: open source
  - **Coastal Innundation Forecasting Demo. Proj.**
    - **Fiji**: Fiji Met. Services, WMO
  - **El Nino Recovery Programme – Kiritimati** – NZ, GEF
  - **Ridge to Reef**
  - **Cyclone Pam Recovery – Vanuatu, Tuvalu**
Urban planning tool:
Demonstrating how flood risks could be assessed and mitigated within the routine responsibilities of Urban Planning Agencies
Opportunities for Partnerships and Collaboration

NEED FOR: National Meteorological and Hydrological Services and nat. hazard observatories to work in partnership with other government agencies and stakeholders (emergency response, mapping agencies, infrastructure, communications, public)

IMPLIES that the partners involved in the projects are part of this collaboration

• Data sharing between agencies and departments is vital (observation data, demographic, spatial datasets, economic/primary activities) – MEXICO!

• Platforms for knowledge sharing and transfer
