Acknowledgments

Thank you to the partners, sponsors, participants, exhibitors, vendors and World Bank teams who collaborated to communicate and promote the Understanding Risk (UR) Caribbean Conference through various media. UR Caribbean was organized by the World Bank, the Caribbean Disaster Emergency Management Agency (CDEMA), the European Union, and the Global Facility for Disaster Reduction and Recovery and was co-financed by the European Union in the frame of the Africa, Caribbean, Pacific (ACP) - European Union (EU) Natural Disaster Risk Reduction (NDRR) Program, managed by GFDRR.

A special thank you to our partners who consistently promoted the conference through their communications channels and facilitated the press conference, media interviews and event livestreams, including Clive Murray (Caribbean Disaster Emergency Management Agency); Stephen Boyce and Wayne Lewis (Delegation of the European Union in Barbados); Janet Caroo and Maxi Baldeo (University of the West Indies, UWItv); and Charles Jong (Government of Barbados).

We would also like to specially acknowledge our Opening Ceremony Keynote Speaker, the Right Honorable Prime Minister of Barbados Mia Mottley; and our Closing Ceremony Keynote Speaker and Partners Showcase facilitator, Dr. Angus Friday.

Thank you to the World Bank teams who contributed to the development, dissemination and/or production of communications elements for the conference, including UR Caribbean Planning Team: Tayler Friar (Lead Communications Consultant), Bradley Lyon (Sr. Partnerships Consultant), Mariel Boden (Operations Intern), Roberta Lovatelli and Jacqueline Chidothe (Event Planning Consultants), Mirtha Escobar (Operations Specialist), Carolina Hoyos (Sr. Communications Consultant), Kristal Peters (Partnerships Consultant); designers Christopher Bantum (B/ue Robin Designs) and Miki Fernandez (Ultra Designs); Simone Balog-Way, Rossella Della Monica, Erika Vargas, Cindy Robles, Jocelyn West, David Tucker, Lorenzo Piccio, Rebecca Solomon, Jorge Villalpando (Global Facility for Disaster Reduction and Recovery); Christelle Chapoy, Alejandra de la Paz, Brune Andre (Latin American and Caribbean External Communications); Kristyn Schrader-King, Yukako Kiraki, Andy Liu (External Communications); and Andrew Berghauser, Jaime Alvarez and Onyekachi Wosu (World Bank Design and Publications).

Finally, to our plenary leads, session leads, session speakers, and media partners, thank you for your time and efforts in making UR Caribbean a success!

Sincerely,

UR Caribbean Organizers
Mary Boyer, Disaster Risk Management Specialist
Kerri Cox, Sr. Communications and Knowledge Management Consultant
Joaquin Toro, Regional Disaster Risk Management Coordinator
UR Caribbean Communications Highlights

- **40+ international media mentions**, including television, radio and print journalism.

- **15+ media outlets** attended the Opening Ceremony, with a keynote address from the honorable Prime Minister of Barbados, Mia Amor Mottley, followed by a full press conference.

- **10 on-site interviews** with World Bank and partner delegates with 5 international journalists.

- **6 live streams** of Opening Ceremony and plenary sessions.

- **65,000+ impressions** across @GFDRR & @UR accounts.

- **25+ communications products** showcased, including: Eight 2-minute video interviews, a feature story headlining GFDRR’s homepage, 10 World Bank session and partner blogs, a cRISKet highlight reel, UR newsletter features, Resilience and DRM newsletter features, and much more!
Getting the **Messaging** Right

A set of core messages framed all of UR Caribbean's Communications products, and also helped to shape speeches and talking points for World Bank senior management, staff, partners and donors during key sessions and media interviews.

“From risk to resilience, we must create a foundation for collective action in the Caribbean.”

“The Understanding Risk Caribbean Conference provided a unique opportunity to bring together disaster risk management practitioners with governments, urban planners, insurance industry stakeholders, private sector organizations, academia, multilateral development banks, civil society organizations, and other regional partners to collectively take action to address and reduce disaster risk.”

“Marking the beginning of the 2019 hurricane season, UR Caribbean will work with regional actors to chart a resilient path forward.”

Why understanding disaster risk matters for a more resilient Caribbean

As hurricane season in the Caribbean approaches, the World Bank’s Anna Wellenstein explains why understanding disaster risk is so critical to charting a more resilient development path for the region.

Organizing for resilience: The Caribbean youth’s response to a changing climate

The devastating hurricane season in 2017 was a wake-up call for young people across the Caribbean, driving them to organize for a more resilient future, explains Jeremy Collymore, Disaster Resilience Consultant for the University of West Indies.

Coping with climate change: the challenge for the Caribbean’s early warning systems

A changing climate means that the Caribbean’s hydromet and early warning systems must be constantly renewed to help countries plan and prepare for extreme weather, explains Geoff Love, former Director of the Australian Bureau of Meteorology.

The private sector’s role in managing disaster risk in the Caribbean

In large part by contributing their technical expertise, the private sector in the Caribbean can play a key role in advancing disaster risk management efforts across the region, according to Brian Reid, Manager for Health, Safety and Environment at Massy Barbados Limited.
CDEMA’s Ronald Jackson: Caribbean on “right path” to resilience

Two years after a devastating hurricane season, the Caribbean is now on the “right path” to resilience, but it will require more partnership to stay this course, according to Ronald Jackson, Executive Director of the Caribbean Disaster Emergency Management Agency (CDEMA).

How the European Union is advancing resilience in the Caribbean

Bodgan Stefanescu, Team Leader for the Green Economy and Resilience Support from the EU Delegation to Barbados, shares a few insights about the EU’s work to advance resilience in the Caribbean region.

Art for resilience in the Caribbean

Art can help us better understand and deal with disaster risk across the globe – the Caribbean being no exception, explains Pablo Suarez, team member for Understanding Risk.

Mobile apps for rapid post-disaster assessment in the Dominican Republic

In the aftermath of disaster, rapid needs assessments play a critical role in helping governments determine priority investments for a resilient recovery. The Dominican Republic is turning to a new mobile application so that it can assess the impacts of a disaster within 48 hours, explains Alexis Cruz Rodriguez of the country’s Ministry of Economy, Planning and Development.
No resilience without community engagement: top-down national recovery plans need to be complemented by bottom-up community initiatives.

Understanding resilience means understanding the role of indigenous communities.

End-to-end early warning systems – what does it take to avoid the disaster?

Understanding and engaging the informal sector for resilient housing across the Caribbean.
